

APPENDIX C (CONTINUED)

C2 – UNDERSTANDING THE ISSUES PUBLIC COMMENTS

Public Workshop: Understanding the Issues

Date:

08/26/15

Name: Paul O'Connor

Email: Paul.Janet.O@yahoo.ca

Organization: _____

Add me to your email list

Zip Code: 33572

Phone: 633.2585

1. Which community do you:

Live JCC

Work _____

2. What is your usual mode of transportation? (Circle those that apply)

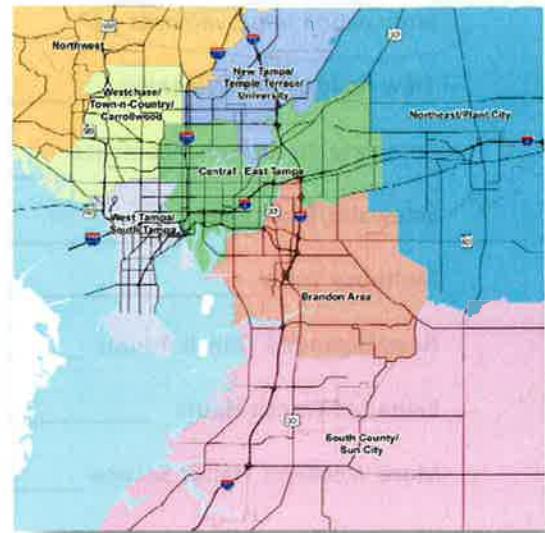

Car

Bus

Bike

Walk

3. Rate (1-5) the quality and safety of transportation in your community, and why?
(1 being poor and 5 being excellent)

Roads: 1 2 3 4 5

Intersections: 1 2 3 4 5

Bike/Pedestrian Facilities: 1 2 3 4 5

Bridges: 1 2 3 4 5

Transit: 1 2 3 4 5

Please flip to other side

Hillsborough County
Transportation for Economic Development

4. Activity 1: **Circle** the three project types below that you chose as most important to you and your community at the Activity Station 1 dot board. **Tell us why they are important to you.**

Asset Preservation

Resurfacing

Pot Holes

ATMS

Bridge Replacement/Improvements

Old Bridges

Intersection Improvements

Poor design

New Roads/Road Widening

Complete Street/Enhancements

Sidewalks/Bike Lanes

Multi-use Trails

New/Expanded Transit Routes

Extended Transit Hours

More Weekend Transit Service

Improved Transit Frequencies

5. Activity 2: Potential Projects List

Did you add any projects to the map? Yes
and why?

No

If so, what projects did you add

Additional Comments: Additional paper can be provided upon request.

You can also mail your comment forms to:

Hillsborough County Government

---------	---	---	------------------------------------	---	---

IT IS INEXCUSABLE THAT RT. 301 IS NOT 4 LANED ALL THE WAYS TO RT. 674. WE NEED IT NOW!
 THE SIDEWALKS IN S.C.C. ARE UNSAFE & UNEVEN TO WALK ON.
 THERE IS A DESPERATE NEED FOR AN EXIT TO BE BUILT ON I-75 & 19TH AVE. & A TRAFFIC LITE AT 301 + 19TH AVE. IS BADLY NEEDED FOR YOUNG PEOPLE TO GET HOME.

Improved Transit Frequencies _____

5. Activity 2: Potential Projects List

Did you add any projects to the map? Yes _____

No _____

If so, what projects did you add and why?

Additional Comments: Additional paper can be provided upon request.

This Hillsborough County should
be ashamed of themselves - They
allow massive subdivisions
without road improvements.
Shame on YOU!

Another "all or nothing" omnibus transportation referendum went down in flames across the bay in November. Two things now seem obvious: We really need to do something; but we can't do everything. A report by a prestigious global consulting firm, AE Com, tells us this county is a long way from qualifying for federal funds in support of a rail project. It says due to low transit ridership, rail is not viable in Hillsborough County at this time. And we are advised to be careful and prudent in the investments we do make.

The first thing we have to do now is face these facts. The expense of rail, or any "fixed guideway" means we can't do it without federal help. And we can't qualify for help until we grow our transit ridership – a lot. AE Com suggests we may have to double our ridership to qualify! It could take decades to build corridors of population density that can make fixed guideways feasible. We should not collect a tax now for a project like this which is so far into the future. Indeed, it may never make sense to do it. So what makes sense to do? Here's a list:

1. Invest in ATMS (Automatic Transportation Management Systems), modern traffic signals to improve traffic flow and boost road capacity.
2. Construction to add capacity on county owned roads to make up for years of neglect, and get on a program that will keep pace with growth.
3. Open up the market in this county for Uber, Lyft and other ride share systems (axe the PTC).

These three things will benefit practically everyone and should have broad support. We should also:

4. Expand current transit to increase ridership and mobility (more Metro Rapid)
5. Finish the Ferry project.

These projects build transit ridership, take cars off the roads in peak periods and provide mobility at the lowest cost per trip due to the efficient use of small amounts of capital required.

And, it all should cost under \$2 Billion over 10 years – total. That is the equivalent of a one cent tax for a limited ten year period. Compare that to the \$8 or 9 Billion or perhaps up to \$15 Billion over 30 years suggested by previous presentations and press briefings originating in the County Center.

Put this with what the Feds and FDOT are doing with managed lanes on I-275, I-75, I-4; FDOT work on Bruce B Downs improvements, the Gateway Connector with Howard Frankland bridge work and possible widening of US 41 South; we can gain a lot of ground in the next ten years. Then we can re-assess the state of technology and our own improved position and determine where we go from there.

This is a sensible list of high value, high impact projects that will make a big difference in our capacity to provide a lot more transportation and build transit traffic at the same time. And it won't break us. It's a sensible plan that we ought to adopt.

Bridges 1 2 3 4 5

Transit 1 2 3 4 5

The neighborhood roads west of 41 are very poor.
Drainage ditches west of 41 are clogged with bushes
which do not drain, and cause "blind corners."
The boat ramp at Common Good Park needs to be redone:
lengthened & made safer. It has a big hole
& is very slick.

4. Activity 1: **Circle** the three project types below that you chose as most important to you and your community at the Activity Station 1 dot board. Tell us why they are important to you.

Asset Preservation

Resurfacing

ATMS

Bridge Replacement/Improvements

Intersection Improvements

New Roads/Road Widening

Complete Street/Enhancements

Sidewalks/Bike Lanes

Multi-use Trails

New/Expanded Transit Routes

Extended Transit Hours

More Weekend Transit Service

Improved Transit Frequencies

I have always been a proponent of asset preservation
makes driving safer for everyone

It would be catastrophic to use a bridge that failed
Way too many accidents at questionable intersections

5. Activity 2: Potential Projects List

Did you add any projects to the map? Yes
and why?

No

We need rail service to get cars off the roads! Also, public transportation to Tropicana Field. That would get more people to games. Do something to prevent pedestrian injuries.

Bike/Pedestrian Facilities 1 2 3 4 5 without Bayshore, 1

Bridges 1 2 3 4 5

Transit 1 2 3 4 5

Smaller, more frequent busses or light rail would enable expanded, more frequent service. I know, I know: more drivers, and they're expensive. But it needs to be done.

P.S. Bob Clifford's point, that the IRS says cars average 56¢ per mile, needs to be printed in neon all over town!!!

5. Activity 2: Potential Projects List

Did you add any projects to the map? **Yes** No If so, what projects did you add and why?

New/Expanded Transit- There is a very strong need for better communication to the public on Bus Routes & Times - Forget Google - we need a local, timely, and responsive system

Additional Comments: Additional paper can be provided upon request.

Sidewalks - Bike Lanes - In many areas "share the road" is interpreted as "Bicyclists Beware".
Multi Use Trails - We are fast losing Florida's Natural Beauty.

1. Which community do you:

Live Davis Island

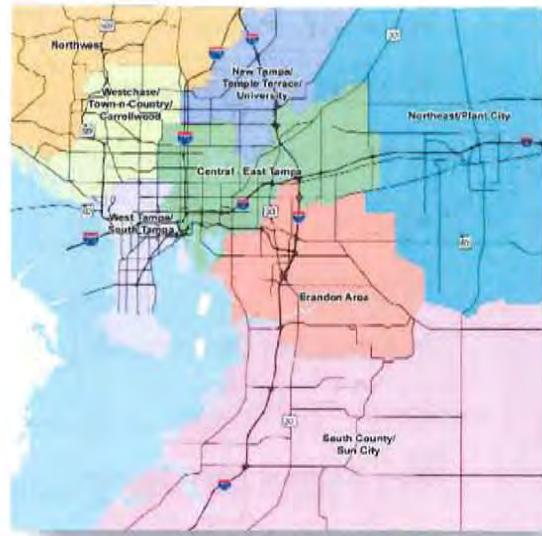

Work Various locations in S. Tampa,
Seminole Heights, West Tampa

2. What is your usual mode of transportation? (Circle those that apply)

Car Bus Bike Walk

3. Rate (1-5) the quality and safety of transportation in your community, and why?

(1 being poor and 5 being excellent)

Roads: 1 2 3 4 5

Intersections: 1 2 3 4 5

Bike/Pedestrian Facilities: 1 2 3 4 5

Bridges: 1 2 3 4 5

Transit: 1 2 3 4 5

Taking transit would triple/quadruple my commute times. Hard for bikes to safely go over bridges (like the one from Davis Island) and stay safe in large intersections. In downtown, there are alternatives with less busy roads. A large number of potholes right now, but that seems to be because of construction. I like the efforts to make Platt/Cleveland more bikeable (car alternative being Kennedy). Like the Riverwalk, Bayshore sidewalk and

ATMS

Bridge Replacement/Improvements _____

Intersection Improvements _____ Whether feel dangerous. It is hard to avoid all the big intersections when getting around that way.

New Roads/Road Widening _____

New Roads/Road Widening getting around that way.
Complete Street/Enhancements Great long-term investment: attracts business, makes districts WALKABLE, SAFER and more interesting.

Sidewalks/Bike Lanes

Multi-use Trails

New/Expanded Transit Routes

Extended Transit Hours

More Weekend Transit Service Increased commute time due to waiting for bus
Improved Transit Frequencies is main reason I don't even consider taking bus.

5. Activity 2: Potential Projects List

Did you add any projects to the map? Yes _____ No _____ If so, what projects did you add and why?

Better bike connectivity between Davis Islands and
Downtown/Rivewalk. The sidewalks aren't enough + the roadway
doesn't feel safe. Islanders aren't far from downtown by bike
and might use bikes more if more accessible. A lot of people come to

Sidewalks & Bike Paths are a huge issue in the South Tampa area. We need more sidewalks in the Palmz City Area. Our children use the roads to walk to school at Roosevelt Elementary and they are not safe. New homes should be required to have sidewalks.

5. Activity 2: Potential Projects List

Did you add any projects to the map? Yes _____ No _____ If so, what projects did you add and why?

I feel the traffic congestion is seasonal. It is more congested September to May because not only is there school, there are residents that only live ^{here} in winter. Some transportation needs to be seasonal also!

Additional Comments: Additional paper can be provided upon request. base

If you use a water ferry to the ~~base~~ once the person gets on base, the shuttle service is very limited, and the base is sprawled out. County and federal need to speak to each other & else about expanding shuttle service or else the ferry will be set up and no one will use it because once they get on base,

Transportation for Economic Development

4. Activity 1: Circle the three project types below that you chose as most important to you and your community at the Activity Station 1 dot board. Tell us why they are important to you.

Asset Preservation _____

Resurfacing _____

ATMS _____

Bridge Replacement/Improvements _____

Intersection Improvements _____

New Roads/Road Widening _____

Complete Street/Enhancements *Priority must be placed on making #2 most dangerous county in U.S. for people on foot & bike a lot safer.* _____

Sidewalks/Bike Lanes _____

Multi-use Trails _____

New/Expanded Transit Routes _____

Extended Transit Hours *People can't go to work, school, etc. at night + get home now.* _____

More Weekend Transit Service _____

Improved Transit Frequencies *Making buses run every 15 minutes means lots of new riders who don't need to have memorized the schedule.* _____

5. Activity 2: Potential Projects List

Did you add any projects to the map? Yes _____ No _____ If so, what projects did you add and why?

Additional Comments: Additional paper can be provided upon request.

Public Workshop: Understanding the Issues

Date:
3-2-2015

Name: Karen Baxter

Email: 813-951-6575
krb2g33@gmail.com
Add me to your email list

Organization: _____

Zip Code: 33611 Phone: 813-951-6575

1. Which community do you:

Live west / South Tampa

Work South Tampa

2. What is your usual mode of transportation? (Circle those that apply)

Car

Bus

Bike

Walk

3. Rate (1-5) the quality and safety of transportation in your community, and why?

(1 being poor and 5 being excellent)

Roads: 1 2 3 4 5

Intersections: 1 2 3 4 5

Bike/Pedestrian Facilities 1 2 3 4 5

Bridges 1 2 3 4 5

Transit 1 2 3 4 5

Frequency of transit is limiting
Hours and Routes should be added
Not enough bike lanes in areas where needed
If you have to walk on sidewalks along busier
roads, you do not feel safe Many intersections
are not well marked/painted Turning vehicles
do not yield to Pedestrians 80% of time.

Our leaders do not have the political will to raise gas taxes so that there is more money to maintain the existing roads, much less to maintain new roads or to widen roads. Users of roads should bear more direct costs. I am opposed to a sales tax to fund roads or transit.

Please flip to other side

4. Activity 1: Circle the three project types below that you chose as most important to you and your community at the Activity Station 1 dot board. Tell us why they are important to you.

2

Asset Preservation

Funds have not been allocated to properly construct or maintain many Brandon roads so we have cones every where. Looks like a pit.

1

Resurfacing

Most bond projects must be for capital assets so how can you say this proposal will allow funding for resurfacing?

ATMS 5

See the exploration

Bridge Replacement/Improvements

Intersection Improvements

6 enhance traffic flow at a relatively inexpensive cost.

New Roads/Road Widening

3 Complete Street/Enhancements

Improve aesthetics enhance sense of well being; property values; attract new business.

4 Sidewalks/Bike Lanes

Multi-use Trails 7

New/Expanded Transit Routes

Do not use public transportation. spouse sometimes uses express bus to MacDill depending on work hours.

Extended Transit Hours

More Weekend Transit Service

Improved Transit Frequencies

5. Activity 2: Potential Projects List

Did you add any projects to the map? Yes and why?

No

If so, what projects did you add

Building more roads leads to more congestion.

Current roads are not adequately maintained.

New roads mean even less funding for maintenance.

Additional Comments: Additional paper can be provided upon request.

#4 It is not safe to walk or bike anywhere in Brandon. Even if there is a bike lane, narrow & not well maintained. Debris collects on edge of roadways making it hard for people on bikes.

Public Workshop: Understanding the Issues

Date: _____

Name: John K. CARTEE

Email: JKCARTEE@VERIZON.NET

Organization: RETIREA

Add me to your email list

Zip Code: 33584

Phone: 813-685-8450

1. Which community do you: (SEFFNER)

Live BRANDON GROVES NORTH

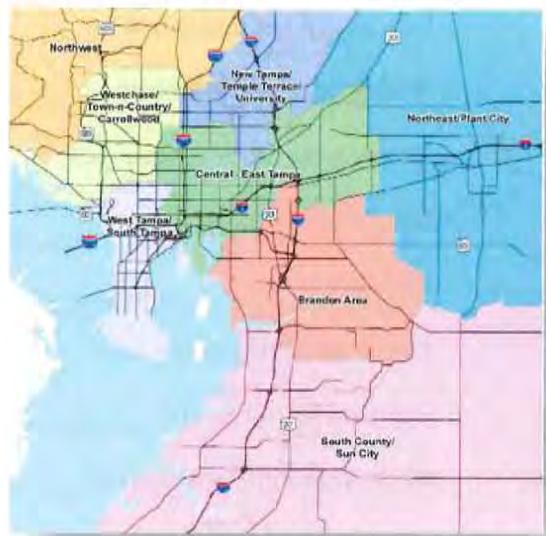

Work _____

2. What is your usual mode of transportation? (Circle those that apply)

Car Bus Bike Walk

3. Rate (1-5) the quality and safety of transportation in your community, and why?

(1 being poor and 5 being excellent)

Roads: 1 2 3 4 5

Intersections: 1 2 3 4 5

Bike/Pedestrian Facilities 1 2 3 4 5

Bridges 1 2 3 4 5

Transit 1 2 3 4 5

WE NEED BETTER MASS TRANSIT
TO ACCOMMODATE AN AGING POPULATION

Please flip to other side

Hillsborough County
Transportation for Economic Development

4. Activity 1: Circle the three project types below that you chose as most important to you and your community at the Activity Station 1 dot board. Tell us why they are important to you.

Asset Preservation _____

Resurfacing _____

ATMS _____

Bridge Replacement/Improvements _____

Intersection Improvements _____

New Roads/Road Widening _____

Complete Street/Enhancements _____

Sidewalks/Bike Lanes _____

Multi-use Trails _____

New/Expanded Transit Routes _____

Extended Transit Hours _____

More Weekend Transit Service _____

Improved Transit Frequencies _____

5. Activity 2: Potential Projects List

Did you add any projects to the map? Yes No If so, what projects did you add and why?

EXTEND HIGH SPEED RAIL TO THE BEACH.

Additional Comments: Additional paper can be provided upon request.

Live Valrico

Work Rocky Point (Tampa)

2. What is your usual mode of transportation? (Circle those that apply)

Car

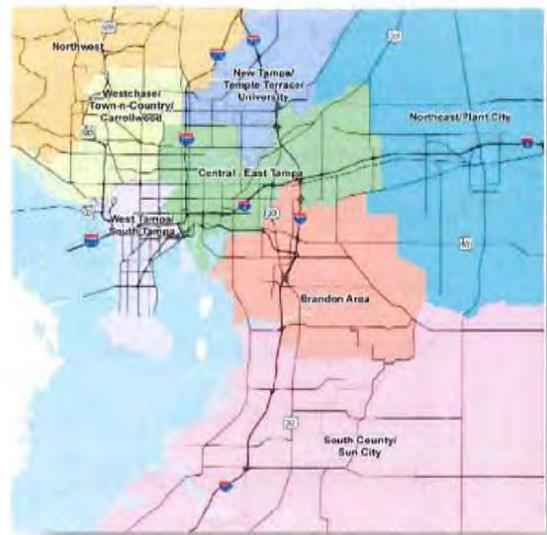

Bus

Bike

Walk

3. Rate (1-5) the quality and safety of transportation in your community, and why?

(1 being poor and 5 being excellent)

A	Roads:	1	2	<u>3</u>	4	5	<i>Registration, rough pavement</i>
	Intersections:	1	<u>2</u>	3	4	5	<i>CONGESTED, long Signal Cycles lack of turn lanes where needed</i>
B	Bike/Pedestrian Facilities	1	2	<u>3</u>	4	5	
	Bridges	1	2	<u>3</u>	4	5	<i>Very few bridges in Valrico</i>
	Transit	1	2	<u>3</u>	4	5	

A The following roads are extremely congested and need to be widened and intersections improved

- ① Lumsden Rd - Lithia Pines rd to Miller Rd. Lumsden ad Valrico Rd ad Miller Rd intersections
- ② Valrico Rd - N/S of SR 60. Needs median at Shopping Center entrances
- ③ Parson/John Moore Rd - SR 60 to Bloomingdale + John Moore/Lumsden Rd intersections
- ④ Kingsway SR 60 to Bloomingdale

B ① Bike lanes on SR 60 are a hazard and not used by most riders due to the traffic and trucks.
Please flip to other side

Transportation for Economic Development

4. Activity 1: **Circle** the three project types below that you chose as most important to you and your community at the Activity Station 1 dot board. Tell us why they are important to you.

Asset Preservation _____

#3 Resurfacing All Roads are a mess especially Valrico Rd

ATMS _____

Bridge Replacement/Improvements _____

#1 Intersection Improvements Need more turn lanes (left) to keep turning vehicles from blocking thru lanes

#2 New Roads/Road Widening Nearly all 2-Lane Roads need to be widened due to extreme congestion in the Brandon/Valrico area.

Complete Street/Enhancements Only in the Brandon Main Street Area

Sidewalks/Bike Lanes Consider adding mid-block refuge crossings on Main Roads with safety barriers to channel pedestrians especially on SR 60

Multi-use Trails _____

New/Expanded Transit Routes _____

Extended Transit Hours _____

More Weekend Transit Service _____

Improved Transit Frequencies _____

5. Activity 2: Potential Projects List

Did you add any projects to the map? Yes No If so, what projects did you add and why?

Lunsden Rd - Little Pinecrest to Miller Rd 2L to 4LD with improved intersections
Pensome Rd SR 60 → Bloomingdale (This is a must!)

Additional Comments: Additional paper can be provided upon request.

C. TRANSIT - add more and smaller circulator buses with shorter headways
Consider widening sidewalks along SR 60 and convert to multi-use paths. Remove Bike lanes. Most people ride on the sidewalks and not the bike lanes

Bridges 1 2 3 4 5

Transit 1 2 3 4 5

Roads are full of potholes. I feel like I'm back in PA (where there are freezing temps). Intersections need to be timed. Bike path on 760 is between two lanes of traffic!?? Bridges seem pretty good — I don't use them often. Transit should be bus — we could use more stops in Brandon.

Work Brandon

2. What is your usual mode of transportation? (Circle those that apply)

Car

Bus

Bike

Walk

3. Rate (1-5) the quality and safety of transportation in your community, and why?

(1 being poor and 5 being excellent)

Roads: 1 2 3 4 5

Intersections: 1 2 3 4 5

Bike/Pedestrian Facilities 1 2 3 4 5

Bridges 1 2 3 4 5

Transit 1 2 3 4 5

Roads - fairly safe, sometimes ~~small~~ narrow or potholed

Intersections - very safe, only a few spots that could use arrows

Biking/walking - EXTREMELY UNSAFE AND INCONSISTENT

Transit - unreliable, slow, terribly routed, we need trains!!

Please flip to other side

Hillsborough County
Transportation for Economic Development

4. Activity 1: **Circle** the three project types below that you chose as most important to you and your community at the Activity Station 1 dot board. Tell us why they are important to you.

Asset Preservation _____

Resurfacing _____

ATMS _____

Bridge Replacement/Improvements _____

Intersection Improvements _____

New Roads/Road Widening _____

Complete Street/Enhancements _____

Sidewalks/Bike Lanes *People need to feel safe in order to feel encouraged to bike or walk, which would lower obesity, save gas, and generally make people happier.*

Multi-use Trails *Most important - We need to compete with other metro areas and allow people to leave their cars at home.*

New/Expanded Transit Routes _____

Extended Transit Hours _____

More Weekend Transit Service _____

Improved Transit Frequencies _____

5. Activity 2: Potential Projects List

Did you add any projects to the map? Yes No

If so, what projects did you add and why?

Light rail running from downtown Ybor to various points in the county, including Brandon. Park and ride facilities and taxi availability at these stations.

Additional Comments: Additional paper can be provided upon request.

I also added bikelanes on Broadway between MLK and Falkenburg.

Transportation should be just under safety in the budget for property taxes AND CIT taxes. Pedestrian accidents can be better addressed with an education campaign to use crosswalks and wear clothing or reflectors that help drivers see you. Our economy cannot handle an increase in sales tax.

I have watched 3 friends leave the Hillsborough county area because they had no way to get to work. They could not afford a car, so they couldn't get to work. ~~They~~ ~~friends~~ No work = no car
no car = no work

I will reluctantly end up being one of those people if things don't change.

There is a damn Tampa/Hillsborough. I love My whole life is here, but is my future?

Bridges ? 1 2 3 4 5

Transit 1 **2** 3 4 5

express commuter bus is great - challenge is the lack of transit to work-home on either end of the trip. If 5:00 local #19 bus is late I miss the last commuter express bus home from downtown. Solved by a folding bike on the bus, but that's a problem on rainy evenings (summer).

Extended Transit Hours → public transit improves affordability, social equity, gives people choices who can't drive or do not want to drive, decreases crashes, improves air quality, reduces GHG emissions

More Weekend Transit Service →

Improved Transit Frequencies →

5. Activity 2: Potential Projects List

Did you add any projects to the map? Yes _____ No _____

If so, what projects did you add and why? Fletcher is constrained now due to pedestrians and environmental assets. Fletcher should not be widened. That is contrary to Complete Streets. Improve capacity through better transit. Metrorapid is a great start but it's a drop in the bucket, which is why very few people ride it now.

Additional Comments: Additional paper can be provided upon request.

Bruce B-Lawns Segment A needs street lights between Beasss and Skipper.

You can also mail your comment forms to:

Hillsborough County Government
Attn: GoHillsborough

Fletcher Ave. Widening to 30th Ave. is not cost effective since the ADT is much less than the ~~ADT~~ ADT approaching I-275. Widening should occur East & West of I-275/ I/C. Don't Waste Taxpayer Money on a section with low priority & lower ADT

3 stars here
New/Expanded Transit Routes Need to get from New Tampa (Cross Creek + BBD) to TIA - give started out 4 hrs ahead + still missed flights due to traffic - stand still traffic on I-75 south + I-4 west. & provide bus service More Weekend Transit Service ~~or light rail more than 1 trip north/south from New Tampa to downtown + to airport~~
Extended Transit Hours
More Weekend Transit Service
Improved Transit Frequencies

5. Activity 2: Potential Projects List

Did you add any projects to the map? Yes

No

If so, what projects did you add and why?

light rail +/or use of CSX tracks from Cross Creek area + BBD to USF to downtown + on to airport.

Additional Comments: Additional paper can be provided upon request.

This city will NEVER grow + attract the businesses who would love to head to here until there is public transportation to move their employees. What a shame. Thank you for opportunity to give feedback + learn

Intersections: 1 2 3 4 5

Bike/Pedestrian Facilities: 1 2 3 4 5

Bridges: 1 2 3 4 5

Transit: 1 2 3 4 5

Transit from New Tampa is oriented to downtown schedules, not USF or hospitals. Need vanpool options to areas w/o transit. Strategies like telework, managed lanes and parking pricing would go along way to managing demand.

Please flip to other side

Hillsborough County
Transportation for Economic Development

4. Activity 1: Circle the three project types below that you chose as most important to you and your community at the Activity Station 1 dot board. Tell us why they are important to you.

Asset Preservation _____

Resurfacing _____

ATMS _____

Bridge Replacement/Improvements _____

Intersection Improvements _____

New Roads/Road Widening _____

Complete Street/Enhancements *make Tampa more of a place than roads & strip malls*

Sidewalks/Bike Lanes *use better designs @ intersections to separate traffic (Denmark)*

Multi-use Trails _____

New/Expanded Transit Routes _____

Extended Transit Hours _____

More Weekend Transit Service _____

Improved Transit Frequencies *Learn from USF Bull Runner does w/ high freq impact on ridership*

5. Activity 2: Potential Projects List

Did you add any projects to the map? Yes

No

If so, what projects did you add and why?

Vanpool services - people have need for options in areas not supported by transit. Bus service New Tampa to USF @ high freq with schedules reflecting work force @ USF & hospital

Additional Comments: Additional paper can be provided upon request.

Need to address parking requirements to avoid incentivized driving. Require employers that subsidize parking to offer transit benefit (SF, NYC, etc do this). Promote telework & compressed work weeks, carpooling & ride sharing & bikesharing & carsharing

If so, what projects did you add and why?

NICE SEATING TO ATTRACT BUSINESS PEOPLE to SPONSER in a PRIVATE PUBLIC PARTNERSHIP wouldn't hurt your routes. The 200x should a minimum be as nice as the PSTA 100x + 300x

Additional Comments: Additional paper can be provided upon request.

About the relationship between Individuals and TBARTA
IF the REGION wants money from the Federal Gov. all the COUNTYS should go thru TBARTA to get money from the state and esp. the Federal Government while you still have Congress man MICA to help you as he told me 10/10/13 Matching FUNDS wouldn't hurt either in getting money this area deserves but of course you have to Seating to match. IF GAS PRICES remain low you could use a GAS TAX as a dedicated source as well as experiment with a $\frac{1}{2}$ cent like what passed in Miami as 1 cent has consistently failed

4. Activity 1: **Circle** the three project types below that you chose as most important to you and your community at the Activity Station 1 dot board. Tell us why they are important to you.

Asset Preservation _____

Resurfacing _____

Keep up what we already have

ATMS _____

Bridge Replacement/Improvements _____

Intersection Improvements _____

take out "Flashing pedestrian Crossing"

New Roads/Road Widening _____

Complete Street/Enhancements _____

Sidewalks/Bike Lanes _____

If cyclists violate rules - make them attend traffic regulation & laws class.

Multi-use Trails _____

they need to use hand signals when turning

New/Expanded Transit Routes _____

Pedestrians need to learn to walk against traffic

Extended Transit Hours _____

More Weekend Transit Service _____

I don't know about routes, but

Improved Transit Frequencies _____

why are all the buses so huge to carrying so few people!

5. Activity 2: Potential Projects List

Did you add any projects to the map? Yes
and why?

No

If so, what projects did you add

Suggestions: Park And Ride

take out Flashing Pedestrian Crossing (as on Busch & Azzerella)

Additional Comments: Additional paper can be provided upon request.

- Put some onus on citizens -
- leave earlier for your destination

Park & Ride - like Valrico
to downtown

Don't always wait until your back

1. Which community do you:

Live Temple Terrace (C-E Tampa)

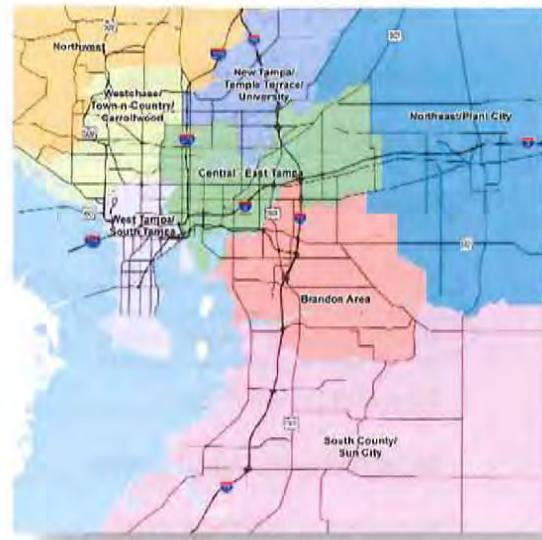

Work —

2. What is your usual mode of transportation? (Circle those that apply)

1 Car 2 Bus 3 Bike Walk

3. Rate (1-5) the quality and safety of transportation in your community, and why?

(1 being poor and 5 being excellent)

Roads: 1 2 3 4 5

Intersections: 1 2 3 4 5

Bike/Pedestrian Facilities: 1 2 3 4 5

Bridges: 1 2 3 4 5

Transit: 1 2 3 4 5

- A lot of potholes that aren't fixed by patches or filling that crumble.
- A lot of people J-walk or don't follow safe practices.
- I don't use enough to have a judgement, looks safe.
- Seems to be in good condition.
- Need options, will never have enough roads if only cars.

Transit

<input checked="" type="radio"/> 1	2	3	4	5
------------------------------------	---	---	---	---

Bus times are infrequent with too many stops.

No bus to flatwoods park. No bicycle lane on 30th South of Fowler, 40th st South of Hillsborough.

Bus travel times are slower than by bicycle.

Too many pedestrian fatalities. Still a low priority is placed on non automobile transport.

Asset Preservation _____

Resurfacing fix pot holes

ATMS _____

Bridge Replacement/Improvements _____

Intersection Improvements especially for pedestrian safety + bike safety (ex. cars having to turn through a bike lane to make their turn.)

New Roads/Road Widening _____

Complete Street/Enhancements _____

Sidewalks/Bike Lanes Sharrows bike lane on 56th N. of the river is dangerous

Multi-use Trails _____

New/Expanded Transit Routes _____

Extended Transit Hours _____

More Weekend Transit Service _____

Improved Transit Frequencies _____

5. Activity 2: Potential Projects List

Did you add any projects to the map? Yes _____

No _____

If so, what projects did you add and why?

Additional Comments: Additional paper can be provided upon request.

I think HART line should have various size busses - depending on the number of riders on a particular route.
Pedestrians need to be "taught" how to cross at cross walks - not between signals.

---------	---	---	---	---	---

Transit	1	<input checked="" type="radio"/> 2	3	4	5
---------	---	------------------------------------	---	---	---

The roads are very busy and congested. I walk to work across Fletcher Ave to USF. While the roads between 30th Street (Bruce B Downs) and Nebraska are better for pedestrians, the University area needs more work to make cyclists and pedestrians safe. Right-hand turning cars are very dangerous!

Transportation for Economic Development

4. Activity 1: Circle the three project types below that you chose as most important to you and your community at the Activity Station 1 dot board. Tell us why they are important to you.

Asset Preservation _____

Resurfacing _____

ATMS If more data and algorithmic programming can help congestion, it's a great place to start with smaller investment than new infrastructure

Bridge Replacement/Improvements _____

Intersection Improvements Pedestrian & cyclist safety in intersection needs to be a top priority. It's a public safety issue!

New Roads/Road Widening _____

Complete Street/Enhancements _____

Sidewalks/Bike Lanes Pedestrian & Cyclist safety is crucial to the community

Multi-use Trails _____

New/Expanded Transit Routes _____

Extended Transit Hours _____

More Weekend Transit Service _____

Improved Transit Frequencies _____

5. Activity 2: Potential Projects List

Did you add any projects to the map? Yes
and why?

No

If so, what projects did you add

Additional Comments: Additional paper can be provided upon request.

Expanding HART is not a viable long-term strategy.
Investment in mass transit (rail, etc) will help stop
sprawl and encourage business investment. When you
get the middle class to use your transit, it will be
successful. But it has to be more convenient than
taking my car.

Did you add any projects to the map? Yes _____

No _____

If so, what projects did you add and why?

Additional Comments: Additional paper can be provided upon request.

A multi-~~city~~ County centralized computerized car pooling system. For a fairly small price & good public education, this I believe would be a good short term & long term help

5. Activity 2: Potential Projects List

5. Activity 2: Potential Projects List

Did you add any projects to the map? Yes No If so, what projects did you add and why?

Rail line from USF/DT/WESTSHORE AIRPORT

Additional Comments: Additional paper can be provided upon request.

We need to educate the public on the \$ available now for transit improvements AND the backlog of projects we have. If people don't understand how projects ARE funded, there is little chance they will agree to pay more, either thru a Referendum or any increase in gas tax, VUT or other tax

6 PM-8PM Lightfoot March 10 (Tuesday) 2015

TRANSIT WISH LIST

Charles R Loeb
11802 Fox Run Lane
Temple Terrace FL 33617
(813) 420-0723

- (1) YOUTH TRANSIT: I love this county's effort to get young people on public transit. Including the FREE SERVICE this Month (March 2015) Can't seem to find either of the 2 flyers however like to spread the word. I view the Summer passes you have as a great investment not only hopefully some of them will use transit when they get older but in the present keep them from being bored and getting into trouble.
- (2) ARMED SERVICE PEOPLE + VETERANS: In Miami-Dade they have free "PATRIOT PASSPORTS". UP here if you don't want to give free service at least it should be at HALF PRICE with PROOF of being in the ARMED SERVICES regardless of the trip taken.
- (3) Dealing with the TAMPA BAY RAYS and other Sports/Binational Event across the bay. I was working on comparing the RAYS Schedule. How many + what games I can get to see from bus with the 100x bus (HART 6, PSTA 4) I find a total of 4 games or 1 more than I see at Marlins Stadium on Public Transit (Specifically Wed May 27 Seattle 1:10 PM Tue 24 Toronto 12:10 PM Thur July 2 Cleveland 12:10 PM Wed July 29 DETROIT 12:10 PM) I suggested to them they do fewer q-20 games at Raymond James Stadium (Sun Life) (the Florida Marlins used the football stadium for 19 years) and can be done without stepping on the TAMPA YANKEES, TAMPA BUCCANEERS. but there is a need to get TBARTA involved to get better service across the Bay. The 200x should be on the same type chart buses to PSTA 100x+300x use.
- (4) Environmentally Friendly Hybrid Buses.
- (5) More 21x buses scheduled. Excellent change from the 61x
- (6) More Service toward Pasco as well as Pinellas County
(please see other side)

(2)

SERVICE to and from Orlando, which could be done by HART + LYNX
splitting the route or you could do like Miami-Dade does with FDOT
picking up the tabs leasing Charter Buses like they did with "Amencon"
on the Route between Florida City and Marathon which is about the
same distance and mileage as TAMPA to ORLANDO. Stops could be
at Disney, Lakeland, Publix warehouse, Perhaps Brandon and seasonally
say at PLANT CITY and further Orange Co Convention center.

Any route for a bus to run every hour, HART + LYNX would only
have to provide a bus every 2 hrs on alternate hours.

IDEAL PUBLIC TRANSIT SYSTEM

Ideally, for the passenger (customer) this alternative transit system should:

- Be adequate and accessible, especially for those with children, large population of senior citizen retirees, luggage, the mobility impaired (ADA), etc; with minimal road crossings
- Be comfortable, fast, convenient, safe, secure, and affordable
- Be like car, but without the hassle of parking or congestion
- Be like a reliable taxi, without the hassle of trying to find one
- Be like public transport without crowding, strangers, interchange or inconvenient service schedules
- Provide reliable information on journey times
- In other words, a personalized service ("mass customization")

Ideally, for Cities the alternative should:

- Be affordable to implement

Example : Greenlight Pinellas Light Rail Transit vs. Ideal Transit

	Greenlight Light Rail Transit	Ideal Transit
Length of Route	24 miles	24 miles
Cost	\$2.5B	\$420M
No. of Stations	16	120 to 380
Hours of Operation	10	24/7
Frequency	pre-determined	on-demand

- Minimize or ideally eliminate raising of tax and subsidies
 - Be easy and quick to implement
 - Modest space-take; minimal take of ground level space and Right-of-Way (ROW)

- Able to fit/ retrofit into small areas either at curb side or center island.
- Quick to implement: to achieve tangible benefits sooner than later
 - Have no conflicts with road traffic and intersections or pedestrian movements.
 - **Make a real impact on traffic congestion**
 - Reduce pollution and make cities more livable
 - And boost cities tourism and livability profile as a “green city”

Ideally, for Cities and Investors:

- Affordable and quick to build, reducing implementation time
- 2-5 years to build instead 10 years for Light Rail Transit.
 - Large number stations can create more Transit Oriented Development (TOD) than limited number of stations of Metro, Light Rail Transit, Bus Rapid Transit (BRT) and Bus.
 - Shorter walking distance to/from stations to destinations.
 - Off-line stop/stations can be sited on both side of the guideway or streets for passengers safety and easy access to avoid accidents and traffic interruption/congestion at the intersection or crossings.
 - Cheap to operate and easy to maintain
 - Easy to manage
 - Reliable, based upon robust systems: good automation
 - Reduced reliance of factors beyond immediate control, through improved accessibility to the system
 - Offer adequate capacity and flexibility to add or alter routes
 - And **profitable to implement and operate without the NEED for SUBSIDY or RAISE TAX**
 - No more need to decide between “cheap & poor service” or being a drain on public finances

1. Which community do you:

Live NORTHwest (ODESSA)

Work RETIRED

2. What is your usual mode of transportation? (Circle those that apply)

Car Bus Bike Walk

3. Rate (1-5) the quality and safety of transportation in your community, and why?

(1 being poor and 5 being excellent)

Roads:	1	2	3	4	5
--------	---	---	---	---	---

Intersections:	1	2	3	4	5
----------------	---	---	---	---	---

Bike/Pedestrian Facilities	1	2	3	4	5
----------------------------	---	---	---	---	---

Bridges	1	2	3	4	5
---------	---	---	---	---	---

Transit	1	2	3	4	5
---------	---	---	---	---	---

transit is non-existent in NW/ODESSA. On the positive side, recent resurfacing & milling of ROADS in NW is great! The construction on the Veterans' Expressway should provide some relief. Conversion to all-electronic tolling is great!
The reality, though, is that this is just a band-aid. The growth in the county is not supported by the infrastructure.

The Tampa Bay transportation infrastructure currently fails with current traffic congestion, and will continue to fail unless some needs are addressed. Even if some funding involves tolls, a higher tax, whatever it takes, it should happen sooner rather than later.

4. Activity 1: **Circle** the three project types below that you chose as most important to you and your community at the Activity Station 1 dot board. Tell us why they are important to you.

Asset Preservation _____

Resurfacing _____

ATMS _____

Bridge Replacement/Improvements The I-275/I-4 interchange needs complete overhaul w/ new bridges + ramps. County should coordinate w/ FDOT.

Intersection Improvements Many of the area intersections are too dangerous, especially with the current red light enforcement. Remove those and improve them.

New Roads/Road Widening The area needs new corridors throughout the entire metro area. The current infrastructure is poor and cannot handle today's traffic.

Complete Street/Enhancements _____

Sidewalks/Bike Lanes _____

Multi-use Trails _____

New/Expanded Transit Routes _____

Extended Transit Hours _____

More Weekend Transit Service _____

Improved Transit Frequencies _____

5. Activity 2: Potential Projects List

Did you add any projects to the map? **Yes** _____

No _____

If so, what projects did you add and why?

New road connecting Sunset Road with I-275 at the western end of the planned "East-West" road (Connecting to New Tampa). The Lutz area needs at least one additional access point from the interstate system, especially with the current commercial construction @ the SR 56/I-75 interchange (Exit 275)

Additional Comments: Additional paper can be provided upon request.

Though not added, the Tampa area needs to revisit some of its original expressway ideas from the 1970's/1980's. The current transportation system has failed in many places and simply cannot handle the current ~~traffic~~ traffic capacity. The infrastructure needs a complete overhaul.

Many of the roads near me are deficient. Maple Dale which has a high school, fire station, major shopping is full of potholes. So is Bearss and all of Ehrlich. Northdale area neighborhood roads flood during heavy rains making it unsafe and inconvenient. Northdale/Dale Mabry intersection was improved a couple years ago and it very helpful. The traffic lights all around the county should be timed/synchronized.

4. Activity 1: **Circle** the three project types below that you chose as most important to you and your community at the Activity Station 1 dot board. Tell us why they are important to you.

Asset Preservation _____

Resurfacing _____

ATMS _____

Bridge Replacement/Improvements _____

Intersection Improvements _____

New Roads/Road Widening Vandyke Rd East of Dale Mabry Hwy.

Complete Street/Enhancements the county did a great job along Dale Mabry Hwy
but it can be difficult to access *

Sidewalks/Bike Lanes _____

Multi-use Trails _____

New/Expanded Transit Routes expand North route on Dale mabry Hwy.

Extended Transit Hours _____

More Weekend Transit Service _____

Improved Transit Frequencies _____

5. Activity 2: Potential Projects List

Did you add any projects to the map? Yes No If so, what projects did you add and why?

* there is a one-mile strip with no sidewalk/bike lane between Lake Carlton Arms Apts. and Grace Family Church along van Dyke Rd. this makes it very dangerous to get to

Additional Comments: Additional paper can be provided upon request.

Dale Mabry to commute by bike.
Also, this road is extremely con-
fested. It is difficult to get out
of Lake Carlton Arms in the morning
rush because traffic along van Dyke is
so backed up. Needs widening + a
bike lane.

4. Activity 1: **Circle** the three project types below that you chose as most important to you and your community at the Activity Station 1 dot board. Tell us why they are important to you.

Asset Preservation _____

Resurfacing _____

ATMS _____

Bridge Replacement/Improvements The I-275/I-4 interchange needs complete overhaul w/ new bridges + ramps. County should coordinate w/ FDOT.

Intersection Improvements Many of the area intersections are too dangerous, especially with the current red light enforcement. Remove those and improve them.

New Roads/Road Widening The area needs new corridors throughout the entire metro area. The current infrastructure is poor and cannot handle today's traffic.

Complete Street/Enhancements _____

Sidewalks/Bike Lanes _____

Multi-use Trails _____

New/Expanded Transit Routes _____

Extended Transit Hours _____

More Weekend Transit Service _____

Improved Transit Frequencies _____

5. Activity 2: Potential Projects List

Did you add any projects to the map? **Yes** _____

No _____

If so, what projects did you add and why?

New road connecting Sunset Road with I-275 at the western end of the planned "East-West" road (Connecting to New Tampa). The Lutz area needs at least one additional access point from the interstate system, especially with the current commercial construction @ the SR 56/I-75 interchange (Exit 275)

Additional Comments: Additional paper can be provided upon request.

Though not added, the Tampa area needs to revisit some of its original expressway ideas from the 1970's/1980's. The current transportation system has failed in many places and simply cannot handle the current ~~overload~~ traffic capacity. The infrastructure needs a complete overhaul.

4. Activity 1: **Circle** the three project types below that you chose as most important to you and your community at the Activity Station 1 dot board. **Tell us why they are important to you.**

Asset Preservation _____

Resurfacing _____

ATMS _____

Bridge Replacement/Improvements _____

Intersection Improvements *Left turn lane needed at N. Dale Mabry & Northdale BLVD.
SAFETY ISSUE*

New Roads/Road Widening _____

Complete Street/Enhancements _____

Sidewalks/Bike Lanes *Safety issue*

Multi-use Trails _____

New/Expanded Transit Routes _____

Extended Transit Hours _____

More Weekend Transit Service _____

Improved Transit Frequencies _____

5. Activity 2: Potential Projects List

Did you add any projects to the map? **Yes** No If so, what projects did you add and why?

Some type of traffic calming on Northdale Blvd. Speeding is prevalent and is a hazard to bicycle riders and occurs due to much traffic taking shortcut to Van Dyke

Additional Comments: Additional paper can be provided upon request.

Electronic speed indicator would be a start

Resurfacing _____

ATMS _____

Bridge Replacement/Improvements _____

Intersection Improvements _____

New Roads/Road Widening Vandyke Rd East of Dale Mabry Hwy.

Complete Street/Enhancements the county did a great job along Dale Mabry Hwy
but it can be difficult to access *

Sidewalks/Bike Lanes _____

Multi-use Trails _____

New/Expanded Transit Routes expand North route on Dale mabry Hwy.

Extended Transit Hours _____

More Weekend Transit Service _____

Improved Transit Frequencies _____

5. Activity 2: Potential Projects List

Did you add any projects to the map? Yes No If so, what projects did you add and why?

* there is a one-mile strip with no sidewalk/bike lane between Lake Carlton Arms Apts. and Grace Family Church along van Dyke Rd. this makes it very dangerous to get to

Additional Comments: Additional paper can be provided upon request.

Dale Mabry to commute by bike.
Also, this road is extremely con-
fested. It is difficult to get out
of Lake Carlton Arms in the morning
rush because traffic along van Dyke is
so backed up. Needs widening + a
bike lane.

The road, Gunn Hwy, is deteriorating by my house. It is on top of a swamp. The intersection of Lutz Lake Fern Road and Gunn Hwy Bl has lights that can not be seen traveling North Bound on Gunn Hwy. Veterans Expressway was two lanes from Kennedy. Now, it is one lane. Major Road Violence for years now!

Citrus park Dr needs to be refuned. maybe we can get the state gov to reinstitute ~~the~~ the law that made developers pay for roads when they built a project.
~~maybe~~ we can take out a ~~non~~ municipal Bond.
 Livbaugh is failing we have to many cars using one road.

We DO NOT need buses! There are not

enough people out here that would ride them to pay
for there use. They don't expand jobs enough
there cost and in this economy that money could
be put to better use. After ware, tear, maintenance,
up-keep, insurance, gas, tags, worker pay, employ insurance,
SSN employ, Healthcare, etc. they just cost to much.

5. Activity 2: Potential Projects List

Did you add any projects to the map? Yes _____
and why?

I would love it if Hillsborough would leave this
area alone! Just maintain the roads we already
have. Most move to this country area for a reason!
We like our private quite area.

March 17, 2015

MPO Meeting at Trinkle Center

My name is Corlene Findley. I have lived in Plant City since 1981. When we first came here and built our home the state was in the process of creating an agency that was to help responsibly control growth and development. That was called the Department of Community Affairs. The decisions at that time were supposed to be aligned to having ALL facilities, roads, schools, utilities in at least a C (using A to F grading scale) rating. We are now at an F minus rating on all major roads. The problem began when any developer could by pass those rules and with politicking and money get approval in a given year for his pet project. The powers that be have overdeveloped and made this whole county (and state for that matter) a nightmare of traffic congestion and there is no end in sight because those same powers just want more of that development. They even go so far as giving away tax dollars to companies to relocate here and create more gridlock. We are no longer a rural type community. Gov Scott saw to that with the dismantling of the DCA, and all the rest of the ruling higherarchy are continuing down the same path. I am opposed to all of this mess that they have created, and I DO NOT want my money spent on doing more than repairing the roads that are in such poor shape they are tearing up my vehicle, and having the drainage ditches maintained on a regular basis (which we no longer get) so that we can avoid the disastrous floods we have had in the past. I can't even use the toll roads anymore because of the system in place. Where is the fair system of dropping your coins in the toll box? No, we get billed more and more for what we should not have to be billed for.

The End.

Mrs. Corlene Findley

This is not my beloved Plant City. We need to stop growth here - I moved to be in the country, now the city came out to me in 1½ yrs!

Bicycles need to be on sidewalks - not in the street! Stop deaths! NE County needs many more answers on 2600+ homes coming in. Personally, right now it is easier to go to Lakeland to shop than fight the traffic congestion in P.C. Everything is for both of them

Please flip to other side

not for
Northeast P.C.

Hillsborough County
Transportation for Economic Development

4. Activity 1: **Circle** the three project types below that you chose as most important to you and your community at the Activity Station 1 dot board. Tell us why they are important to you.

Asset Preservation _____

- Resurfacing Roads tearing up my car.
- ATMS Would help a better flow of traffic. Also make
- Bridge Replacement/Improvements ALL caution lights the same
- Intersection Improvements length so you can better judge
the intersection
- New Roads/Road Widening the intersection
- Complete Street/Enhancements Too many streets too narrow for traffic
- Sidewalks/Bike Lanes especially with increase of semi's,
- Multi-use Trails way too many not being used. Dangerous
- New/Expanded Transit Routes for bike to be on the road - put them on
- Extended Transit Hours the sideways or next to them.
- More Weekend Transit Service the sideways or next to them.
- Improved Transit Frequencies _____

5. Activity 2: Potential Projects List

Did you add any projects to the map? Yes

No

If so, what projects did you add and why?

2600 + homes & no answers how to handle that traffic. It won't be easy to even get onto the roads in N.E.

Additional Comments: Additional paper can be provided upon request.

We need to keep ahead of the infra structure and slow growth.

(2) Sidewalks/Bike Lanes I have went down roads that narrow with people walking or riding a bike. Little altering you could say. Charlie Griffin speaks for itself.

(3) Multi-use Trails

(1) New/Expanded Transit Routes Single mom attending school with a worn down car that breaks a lot; if it wasn't for my church, VOC rehab + homeless Coalition I wouldn't still be in school as able to graduate. If I miss one more day of school which is highly possible I will be kicked out of school and my goal of self sufficiency will be much harder. I am in school for medical billing + coding. Working @ fast food or department store just won't cut it.

More Weekend Transit Service _____

Improved Transit Frequencies _____

5. Activity 2: Potential Projects List

Did you add any projects to the map? Yes

No

If so, what projects did you add and why?

Charlie Griffin road needs sidewalks. I have had to walk down that road before. It was very scary especially w/ ppl in Plant City always in a hurry to get nowhere.

Additional Comments: Additional paper can be provided upon request.

need public transportation at least a couple to get to a transit center. we truly, truly need this.

Not sure if you can do anything about this, won't be surprised if you can't. Our drivers drive so crazy that in order to survive in a world of crazy drivers, we too must learn to drive crazy. Fox ex. If you try to get over while using a turn signal, you won't get over. I do use mine and drive courteously. But I have a 14 year old daughter. Its really scary teaching our children how to drive in a world of no remorse.

My last comment and plan is with our parks & recreation department. There is a park on Yukon street, @ Between Nebraska & FLt avenue near home depot & walmart super center. It is a park where numerous homeless people go to rest, socialize and do drugs. I know because I have a 17 year old son who is homeless, spends most of his time at that park and he is on drugs - I'm told only spice which is a synthetic marijuana that is so bad on the brain. Can we clean up these parks? Not just arrest them or scare them away but offer assistance for help. My son is 19, I know it's not too late but he needs help. His name is Michael. But there are others who also need help.
