Some roads are in good shape; major roads like Hillsborough + Nebraska (the traffic calming & changes done to Nebraska were very well done - needed further north). Many other roads in very bad shape. Transit is limited - not enough service!

We need light rail!

perhaps my concerns are more for city services than county  
The road in our local community are deplorable. The platt  
st. project is wonderful. We are looking forward to our  
streets being wonderful after all the freeway construction.

Bus - ridership alone main street would ~~not~~ increase if  
there was Sunday Services. The same goes for service on  
Cypress st. we need ~~to~~ cross town bus service to Walmart  
and other stores along Kennedy. If you

Asset Preservation

- ① Resurfacing once the 275 construction is finished I hope  
surface streets are repaired  
ATMS

Bridge Replacement/Improvements

- ② Intersection Improvements There are many streets in the WTPA neighborhood  
that need 4 way stops,  
New Roads/Road Widening many neighbor streets such as Lemon + State  
streets between Oregon + Howard need to be widened  
Complete Street/Enhancements

- ③ Sidewalks/Bike Lanes all streets in west Tampa need enhancement  
Bikes are the main type of transportation  
Multi-use Trails in the WTPA area. We would like Bike lanes like Platt street

- ④ New/Expanded Transit Routes Many routes need to be expanded in WTPA  
especially on the weekends. SAT/Sun  
Extended Transit Hours

More Weekend Transit Service

Central West TPA area

Improved Transit Frequencies

Central West TPA area

I really liked the projects I saw on the map, especially fixed guideway for the Airport, westshore, and Brandon.

I would really like to see LRT from TPA/~~westshore~~ westshore to Brandon. This would connect the most dense, populated areas of Hillsborough.

The driving has become horrendous. More and more people are on their phones. No one respects pedestrians crossing. The only way yet are going to make this a safer place for all is to enforce. Start ticketing people, even for minor traffic violations, such as not letting pedestrians cross and sit there example for the rest

Our long term transit plan should take into account the rising water level + plan for what will be, not what is now, because Tampa Bay will look quite different in 25 years.

Intersection Improvements \_\_\_\_\_

New Roads/Road Widening \_\_\_\_\_

**Complete Street/Enhancements** our intersections are not smart & do not accommodate multiple kinds of transportation.

**Sidewalks/Bike Lanes** We need a safe place for bicyclists & pedestrians

Multi-use Trails \_\_\_\_\_

New/Expanded Transit Routes \_\_\_\_\_

Extended Transit Hours \_\_\_\_\_

More Weekend Transit Service \_\_\_\_\_

**Improved Transit Frequencies** Buses do not run frequently enough. I live 8 miles from work and it would take me 1.5 hours to get there. Unreasonable.

5. Activity 2: Potential Projects List in a major city.

Did you add any projects to the map?  Yes      No      If so, what projects did you add and why?

LIGHT RAIL. There is no good reason a city of our size does not have a rail system. If you want to stay relevant & a good place to live get one started now.

Add water ferry stops upriver - Water Works Park, Rick's, Rivercrest Laundry Park. Beautiful river but under utilized.

Additional Comments: Additional paper can be provided upon request.

Add a trolley expansion into deep South Tampa and up to Seminole Heights/Sulfur Springs

This county can't be competitive  
w/o a more holistic approach to  
transit including fixed route

Please consider rail mass transit so Hillsborough can move forward. Please do what you can to preserve the beauty of the area. There are very few charming spots in No Tampa, but Linebaugh Ave between Sheldon + Country Way is one. Widening the road would destroy a lot of that appeal. Tampa needs more beautiful areas. It's possible to have the beauty + the transit as many countries - as in Europe have. The Seminole Heights area was ~~was~~ Please flip to other side

Largely destroyed/damaged because 275 cut through it. It's possible to prevent what type of planning we are a tourist industry and need the beauty - it also adds to quality of life.

Public Workshop: Understanding the Issues  
South County/Sun City  
Public Comment Audio Recording  
Date: 2.23.15

1. Captain Teo Leonard, Apollo Beach, 813-699-9325

Hi, Good Day. The 23<sup>rd</sup> of February, Captain Teo Leonard, retired. Apollo Beach, Florida. My phone number for contact information is 813-699-9325. I'm having trouble understanding why, first off, on the board where we can put our red dots, there's nothing to address the issues for I-75 – on and off. The traffic on southbound at rush hour on 75 as you headed back to Apollo Beach backs up pretty much seven days a week. In the mile and a half plus range you actually have had to add a sign at three miles back saying "prepare to stop." That would probably, maybe tip the hand that we have a traffic problem getting on and off 75. In the morning it can take up to an hour to get from 41 to I-75 to go northbound onto 75, and at last count there are seven cars coming from the 301 direction to every one car from the 41 direction. What is unclear is why you continue to issue permits and build so many houses on the 301 corridor etcetera with those people, according to the representatives here, providing zero infrastructure to help in the Big Bend/I-75 . If that's the case, maybe you should just not allow traffic from 301 to come on to Big Bend Road to access 75 northbound. Or provide another ramp. Oh, but you can't do that because you gave several hundred million dollars of our tax dollars to the YMCA to build so that they can have their corrupt infrastructure and make several hundred thousand dollars as a local manager. So instead of giving that tax dollars, why don't you guys look out for the fiscal responsibility of those of us that actually do pay taxes so that we can get on and off the freeway. That would be our number one concern since we can't put that on the board. And your current board shows that there is no traffic issue on Big Bend Road through 2018. Maybe you guys should look at that because as I'm sitting here looking at the board right now it says there's no traffic issue through 2018 on Big Bend Road, and maybe you should get off your butts and drive here at rush hour. Thank you.

In terms of transportation, I drive. It's very dangerous in the mornings to get on the interstate. Traffic is backed up. You have traffic on both sides of big bend trying to get on I-75 N. Traffic coming off the interstate. It's an accident waiting to happen.

5. Activity 2: Potential Projects List

Did you add any projects to the map? Yes  
and why?

No *but* If so, what projects did you add

In terms of schools, we need more high schools as the ones we have now are already oversubscribed.

Additional Comments: Additional paper can be provided upon request.

With all the subdivision opening up traffic is not going to better. It will only get worse. There has to be a solution to the problem. Ever the interstate on the weekend is becoming congested.

Big Bend Road is horribly congested and traffic flows have drivers jumping lanes - often cutting across 3 lanes of traffic to make turns. Transit is non-existent. Too few bike paths, sidewalks or safe ways to get around other than by car. I-75 & Big Bend interchange backs up in both directions throughout the day and it can take 20-30 minutes

WITH RUSKIN/WIMAUMA, THE COUNTY IS TRYING  
TO BE PRO-ACTIVE (RATHER THAN RE-ACTIVE LIKE  
WITH BRANDON/VALKICO.

MY SUBDIVISION HAS A HART BUS-STOP AT  
THE ENTRANCE (373 HOMES WITH ANOTHER 203  
UNDER CONSTRUCTION), BUT WHAT GOOD IS IT  
IF THERE IS NO SERVICE WHEN WE'RE ALL AT  
HOME & WOULD THEN FREQUENT IT?

Big Bend road is Bruce B Downs Jr right now!  
The road needs to be widened now not after it is  
Completely useless!

The Big Bend / I 75 interchange is totally dangerous!  
It needs to be redone now!  
Setting Newland off the Rock Bottom extension of Apollo  
Beach Blvd and the I 75 work is criminal!  
The agreement they agreed to was before the law

Changes. The property owner of Waterside are being  
shaved as that cost is incorporated in their lot costs!  
Newland was provided a wind fall!

Construction in the area deteriorated roads. Lights at intersections not synced properly. No bike/ped facilities in our area. No real bridges over areas. Wouldn't even consider current mass transit as it is not efficient. Love using mass transit in other cities.

The I75 interchange is a MAJOR need at Big Bend. If you have to put lighted signs on I75 telling people "Be prepared to stop" there's a problem!! It shouldn't take people 45 min to drive 5 miles because the way to get on I75 is so very inefficient. Money for transportation should be ABOVE parks & rec.

## **Understanding the Issues**

**February 24, 2015**

**Ragan Park**

Public Workshop: Understanding the Issues  
Central-East Tampa  
Public Comment Audio Recording  
Date: 2.24.15

1. My name is Natasha Goodley I reside in the outskirts of Ybor City, Belmont Heights, I am a homeowner, my telephone number is 813-270-7866, and one of my comments is that I believe Hillsborough county and the city of Tampa when it comes to transportation we have a problem of poor planning, we've not planned financially to handle our city, based upon transportation. The example I gave to several individuals this evening is a family that has a child that is preparing for college, if you have a tenth grader who is preparing to go to college, and you and your spouse know that you don't expect any raises, promotions, anything at your job you're going to make the same amount of money, you have to make cuts financially so you can support your child going to college in the next two years. Personally, I feel that's what happened with Hillsborough County, we did not plan financially for our future and if this is something that every household in America has to deal with when it becomes time for their children to go off to college this is definitely something that a city and a county as large as Hillsborough County should be able to do. Secondly I believe there is poor urban planning, when you have and I'm going to use an example of Hillsborough and 22<sup>nd</sup> that area because there's been several fatalities and of course crashes and people being injured in an intersection well not necessarily the intersection but a little bit, a little bit east of the intersection. Its poor urban planning when you have an apartment complex especially one that is low income generated across from strip malls that have everything in it that the residents in that apartment complex would need to obtain. Most cities have planned for by putting the businesses on the street so that the businesses are actually store fronts that are on the main street and the apartments and homes and whatnot are behind it and grant it I know that the mall was there first, so maybe there were some issues that we should have addressed with putting the apartment complex there but of course you could have put a bridge, a walkway over. Several cities have put fences up, at least in that area that's where you mostly have the issue of people, the issue of people walking through, again it's just poor planning in my opinion, I really think we need to stop making excuses, we need to plan financially for the future, and that needs to include the entire county and of course the entire city and just one specific area. Thank you

I am sick & tired of living in America's #2 most dangerous place to ride a bike & walk down a street. I am just as sick & tired of living in the only 1 million+ community that has yet to offer convenient transit options for daytime, evening & weekend. We need those 2 UNADDRESSED, massive issues to be where & how we spend our \$\$\$: make our streets safe, & give us a choice to not always have to drive our cars every time we ever leave home.

I launch between houses in Brandon & south Tampa and I am surprised how little transit options there are in both regions. I've lived in Washington D.C. & Atlanta (which I thought had a mediocre at best system) and Tampa falls at the bottom. In addition to more public transit (new routes, rail, rapid bus, and dedicated lanes), biketones are limited. Bayshore is great we just need a safe way to get there. Also community buy in to supporting bike commuters including showers & lockers.

In my neighborhood, Ybor City, most of the streets are brick & durable. Most intersections in Ybor & Downtown are well light & safe. Most of the innercity overpasses & bridges have narrow lanes & are crowded.

Additional Comments: Additional paper can be provided upon request.

*As a Millennial I hate owning & Driving Cars. Most of my friends live in Cities that have great light rail (San Fran, NYC, Chicago, Charlotte). I really hope there will be more emphasis on light rail to alleviate traffic congestion, make Tampa more walkable & preserve our historic neighborhoods (Ybor City, Hyde Park, Sem Heights etc) that originally used light rail when Tampa was built.*

Unfortunately, increased roads & highway systems have not solved traffic & transportation issues with congestion, accidents, & commute time. By implementing more alternative modes of transport like, the ferry system, electric rails, & other transit options we can help alleviate issues & lead the way

I think discouraging development in the farthest corners of our county & encouraging development closer to downtown would reduce the amount of roads that must be maintained & allow us to concentrate resources on the roads we already have. Encourage the growth of downtown Tpa but don't lose parking on the street. Keep the Rays out of downtown Tpa.

5. Activity 2: Potential Projects List

Did you add any projects to the map? Yes and why?

No

Look how popular Bayshore is for exercising or the Pinellas Trail. But plan for parking areas so residential areas aren't adversely impacted. If so, what projects did you add?

## **Understanding the Issues**

**February 26, 2015**

**SouthShore Regional Library**

Hillsborough County Transportation Workshop  
South County/Sun City  
South Shore Regional Library  
5816 Beth Shields Way  
Ruskin, FL 33573  
February 26, 2015

**Verbal Comment**

I have two comments to make that are very important and may save some lives. On 19<sup>th</sup> Avenue where the library where we're meeting at is held, this is a spot that turning off of 19<sup>th</sup> Street is a very dark and dingy place and it's very dangerous. The road curves and so I would like to see good lighting right there at the entrance to the library off of 19<sup>th</sup> Street so we can turn either way and make it.

Also on 19<sup>th</sup> Street as it meets 301, we need lighting there because, yes there is a light there and thank you for that, but now we need light to see where the road is and to turn at the right place and so forth. So please...a street light that gives off a lot of light at that intersection please.

This is Paula Hughes, 813-633-8812 if there is any questions I will be glad to answer because me and my husband have fought for a long time; who do we tell about these two dangerous places, especially the one for the library, and please, please put the lights in. Thank you very much.

THE END

Divided roads are confusing & it is too easy for a driver to make a mistake & go the wrong way causing head-on collision risk to be very high.  
We need more mass transit, both expanded routes and increased frequency of runs.

and why?

Create two intersections. South Pebble Beach and 301.  
Del Webb and 19<sup>th</sup> Ave. These would take  
Traffic off of 678. NEED to be creative and make  
The community feel safe by  
changing laws and having gates!

Several streets such as East + West Del Webb Blvd have numerous depressions in the road, mostly near manhole covers. This may be caused by leaks in the drain piping creating a potential hidden hazard.

Strongly concerned about widening of 19<sup>th</sup> St.

Truck & motorcycle noise is bad now & widening would make it worse. If it is widened we need noise abatement

Against also an exit from 75 to 19<sup>th</sup> St.

SCL will also need noise abatement if Valencia Lakes builds a wall on top of 301 berm.

## PROPOSAL

I'M SUBMITTING A PROPOSAL FOR A 2/10 MILE PATH IN SUN CITY CENTER RUNNING FROM CORTARO DRIVE, CROSSING AT ROUTE 674 TO DENNYS, WENDYS, AND THE BOB EVANS RESTAURANTS. THIS PATH WOULD BE FOR THE USE OF GOLF CARTS, BIKERS, AND PEDESTRIANS.

GOLF CARTS CAN NOW SAFELY REACH THE CROSSING AT CORTERO DRIVE AND ROUTE 674 WHERE THERE ARE STOP LIGHTS. THE NEW PATH ALONG 674 ON THE RESTAURANT SIDE COULD AT FIRST BE SURFACED WITH PACKED CRUSHED STONEDUST OR OTHER SUITABLE MATERIALS.

THIS SHORT PATH WILL HELP REDUCE AIR POLLUTION, NOISE, AND SAVE FUEL BY REDUCING THE NUMBER OF CARS ON ROUTE 674 AND ALLEVIATE THE PARKING CONGESTION AT THE RESTAURANTS DUE TO THE USE OF GOLF CARTS.

WOULD YOU GIVE THIS PROPOSAL YOUR CONSIDERATION? THANKS.

Hillsborough & Manatee County 1.

From: Ralph Greenlee  
Sundance

**Important points for the Sundance By-Pass using a new road South to Buckeye Rd within Manatee County proper. Hillsborough County should present these points when talking with Manatee County Government Administrator Ed Hunzeker.**

General:

- When we built the Little Manatee South Community Plan(2008-2010) we had discussions surrounding “Regionalization” fostered by the leaders of the two adjacent County’s and how that might come into play with our neighbor County; Manatee.

Specific:

- Development of Residential and Commerce in north Manatee County off of the By-pass road and off of Buckeye Rd; the main East-West arterial just south of the Hillsborough County line. This will increase the tax base for Manatee County.
- A continuation of the Sundance By-Pass, both north and south, will allow much more freedom of movement. Going south for instance would allow for connection to Moccasin Wallow Road and an I-75 interchange. Continuation of the By-Pass road, beyond Moccasin Wallow, could eventually lead to the bridge over the Manatee River and gateway to Rt. 64 opportunities.
- Future roads such as the Manatee County Port Connector and its potential I-75 interchange would make south Hillsborough and north Manatee Counties a great place to work and play.
- Current companies such as FedEx Ground already exist off of Buckeye Rd. Competitors such as UPS will want to expand to counter the quick deliveries that are offered by their challenger.
- North-South routes such as the Sundance By-Pass and the route adjacent to the Economic Development Area within Little Manatee South will create the “suspenders” for growth within our two great Counties.

I have concerns about the heavy heavy traffic on #674 (thru Sun City Center). They seem to be re-routed from I75 East to #39 -- only 1 traffic light (#301) - they no more for 11 miles to #39 - then the cars head north toward Plant City.

In our community, bridges seem to be in decent condition but I don't think this is true for all of Hillsborough County.

Access on to Sun Center Rd (Rt 674) and off from it is dangerous. More stop lights are needed. Also, increased exits/entrances to I-75 might help ease all of the through-truck traffic on 674.
